### Our meeting in Metz, France 3. – 9. 12. 2017

I was impressed by parliament in Strasbourg which has 751 members. The school, Collège Jules Lagneau in Metz is very modern and beautiful too. I really enjoyed visiting the Town hall and the view of the city from the Russian Wheel.

*Michaela Slováková, Slovakia*

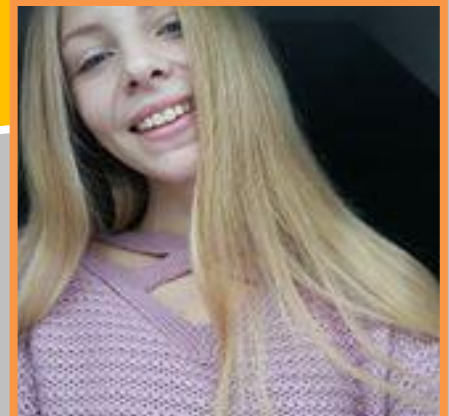

I liked how we worked in international teams and solved questions which were connected with digital literacy and how we had a lot of fun when we were on local radio. I liked the trip to the historic city Nancy

*Tamara Salajková, Slovakia*

I liked how we were looking for some information about the legend in Metz. I admired the beautiful Christmas decoration in the city. I was pleased to spend this time in French family with my new friend Eva and I tried to speak English with them.

*Aneta Chudá, Slovakia*

## We visited European parliament in Strasbourg

We visited the negotiating hall and took part in a lecture about the role and activities of the European parliament that represents more than five hundred million inhabitants of the European Union and together with the Council of Europe decides about receiving of legislation that influence our everyday life. It concerns the areas such as freedom of movement, safety of food, consumer protection and our environment as well as most of economic sectors.

# Internet browsers

In the exploration we answered two questions

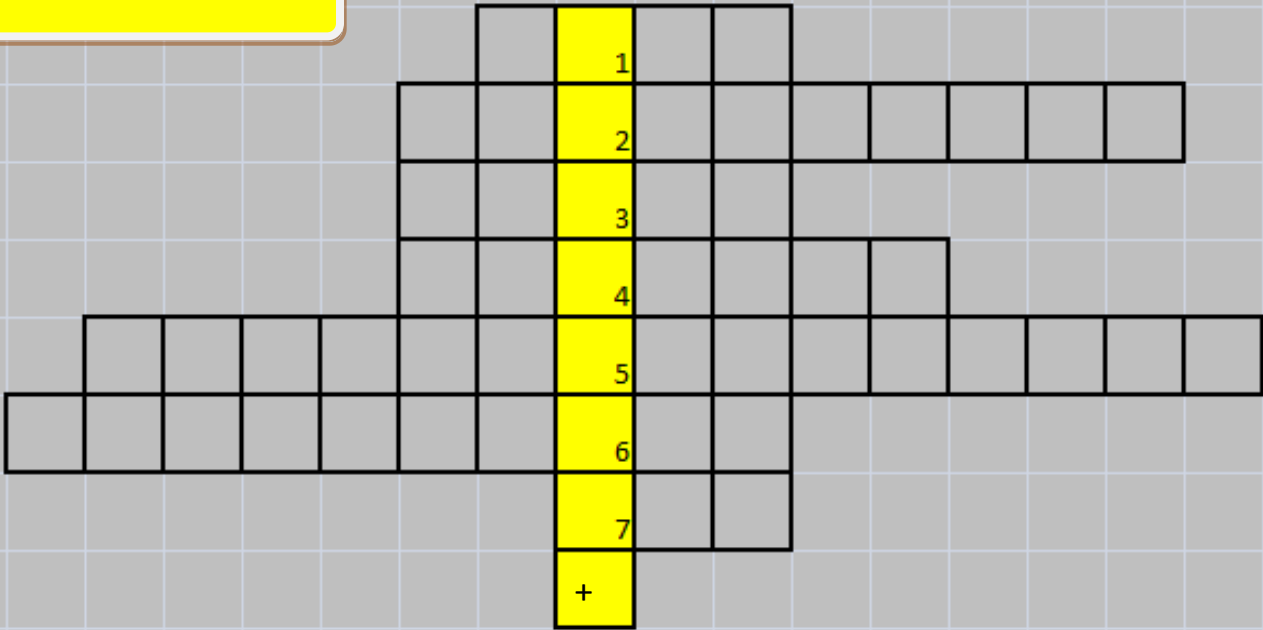

**1. Have you heard about these web browsers?**

**2. Which browsers do you use?**

We could choose some of the possibilities: Zoznam.sk, Centrum.sk, Google, Yahoo!, Atlas.sk, Searchalot, WEB.DE, ASK, Bing. In exploration, where were 123 students, we know that the most famous and use is Google, we use it at school and home.

## CROSSWORD

1. Our partner school from France is in town.....
  2. In Strasburg is European ..... consists of 751 parliamentarians
  3. Our partner country .....
  4. In Portugal is school Agrupamento Escolas de Resende in town .....
  5. One of our activities of project was ..... too
  6. European parliament has its seat in .....
  7. To project Erasmus+/Citizen 3.0 Empowering students with Digital Literacy/ joined ..... countries.
- Michaela Slováková, Slovakia*

## Carnival in Slovakia

Carnival in Slovakia which we call Fašiang is the time from the Three Kings to the Popoľc Wednesday. 40 days period begins 12. February and ends on Easter. Fasiang includes cheerful mood and feast. The celebration takes three days. Almost in every village or town you can find people faithful to the traditions who are dressed in merry masks, traditional costumes and walking along streets with music, songs and wine, sausages, cakes, traditional dances. We like having fun and one day we teach at school in masks. At the break time we dance in school corridors typical dances and sing songs. Who is wearing a mask will not be tested. We finish school with mask defile in the gym.

## Video conference

On Monday 12.2. 2018 we had a video conference with our partner school from Hungary. We talked to them about the holidays that we celebrate in Slovakia. Because we had Fašiang period, so we invited schoolchildren who were dancing and singing to them as Turks. Our Hungarian partners have also prepared an interview for us about their country. Springs holidays they celebrate very much like us, they decorated Easter eggs, houses decorated with different colored ribbons and they eat traditional Hungarian cakes. I think the videoconference has succeeded.
